Pre-conference Workshop 4th October 2025

NeoSim – Neonatal Emergencies by Simulation

NeoSim is an intensive, one-day simulation-based workshop designed to prepare healthcare professionals to effectively manage neonatal emergencies in high-pressure scenarios. Using high and low-technology mannequins, this program focuses on skill, knowledge and also human factors essential for success during emergencies.

Program Highlights

- Engage in eight interactive simulations of common emergencies
- Immersive Training with high-realism scenarios
- Learn how to minimize errors and enhance team work
- Build preparedness, confidence, and leadership skills

Who Should Attend?

- Pediatricians and pediatric trainees
- Neonatologists and neonatal trainees
- Pediatric critical care physicians and trainees
- Pediatric emergency medicine physicians and trainees
- Emergency physicians and trainees
- Anesthetists managing neonatal cases
- Pediatric and neonatal nurse

National Coordinators

Dr. Vijaynand Jamalpur

Dr. Shilpa Kalane

Local Coordinators

Dr. Saikat Patra (+91 97803 17739), Dr Nitika Agarwal (+91 93897 43804)

STEP: Simulation Training in Emergency Pediatrics

STEP is a one-day interactive workshop designed to empower healthcare professionals with skills for managing pediatric emergencies. Combining high and low technology manikins, and practical, hands-on scenarios, the program emphasizes critical thinking, teamwork, and advanced preparedness in real-world settings.

Programme Highlights

- Participate in eight realistic simulations of emergency scenarios
- Experience immersive learning environment
- Focus on minimizing errors and enhancing team performance
- Strategies to maximize outcomes in resuscitation efforts
- Develop confidence, enhance leadership, and improve preparedness
- Concise review of common pediatric emergency protocols

₹3500/- ONLY

Early bird extended
to 30th June, 2025

REGISTER HERE

Who Should Attend?

Residents and Faculty from -

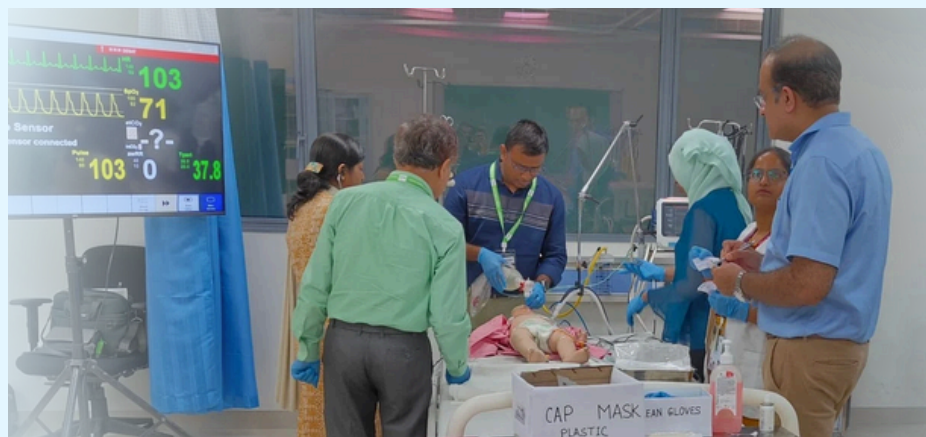

- Pediatrics
- Emergency medicine
- Anesthesia
- Pediatric Surgery
- Intensivists
- Fellows, Nurses, Paramedics

Obstetric & Neonatal Emergency Simulation

Immersive simulation scenarios

Key Learning Outcomes

- To understand the principles of managing neonatal & obstetric emergencies
- To practice technical and teamwork skills in a safe, simulated setting
- To consolidate learning through structured, collaborative debriefs

₹1000/- ONLY

Early bird extended to 30th June, 2025

Who can Participate?

- Pediatric and neonatal: doctors, nurses, students
- Obstetrics: doctors, nurses, matrons, educators
- Anyone involved with mother and baby care at childbirth: paramedics, anesthetists, surgeons

Workshop Details

Timings: 9 am – 2 pm

Venue: Himalayan Institute of Medical Sciences, Dehradun

SNAP: Strengthening Nurses in Acute Pediatric Care

The SNAP Workshop is specifically designed to empower nurses with the confidence and skills required to manage pediatric emergencies.

Programme Highlights

- ◆ Focused on the unique challenges faced by nurses in time-critical pediatric care settings.
- ◆ Strengthen communication skills with colleagues and patient families.
- ◆ Rehearse and refine the recognition and management of acutely unwell children.
- ◆ Learn in a controlled setting where errors are an opportunity for growth without patient risk.
- ◆ Build confidence in working collaboratively within multidisciplinary teams.

Who Should Attend?

Nurses working in:

- Pediatric Emergency Units
- Emergency Medicine Departments
- Pediatric Intensive Care Units (PICU)
- Pediatric Operating Rooms (OR)
- General Pediatric Wards
- Pediatric Day Care Wards

Adult SIM WARS

What is SimWars?

SimWars is a cutting-edge simulation-based competition and an engaging way to enhance learning. Teams of "Sim Warriors" compete in an interdisciplinary format, showcasing their clinical expertise, communication skills, teamwork, and problem-solving abilities. Participants face emergency room scenarios on advanced simulation mannequins, culminating in a final round where the top two teams battle for Resus Glory!

What to Expect

- Teams will navigate complex simulation scenarios focused on emergency medicine.
- A panel of experts will evaluate teams on:
- Clinical management and decision-making.
- Communication and teamwork.
- The most proficient team will emerge as the champion of Adult SimWars!

Who can Participate?

Team Composition:

Each team must include minimum 4 and maximum 6 members:

- At least 4 doctors, should be postgraduate trainees.
- The remaining members can be nurses, paramedics, postgraduate trainees, post-PG professionals, fellows, or post-fellowship participants.
- Physicians and residents must have less than 7 years of experience post-MD/DNB/equivalent degree.
- There is no experience limit for nurses and paramedics.
- Team Flexibility: Teams can include members from different organizations, encouraging regional collaborations.

₹10000/-per team ONLY

Early bird extended
to 30th June, 2025

Competency Based Skill Trainer Course for Medical College Faculty

Competency based Skill Trainer Course is a comprehensive workshop tailored for medical educators, focusing on the pivotal role of simulation in Competency-Based Medical Education (CBME) as outlined by the National Medical Council (NMC). Through hands-on learning and innovative strategies, the program equips faculty with the skills to enhance teaching, assessment, and student engagement.

Programme Highlights

- ◆ Explore the integration of simulation into CBME as per NMC guidelines.
- ◆ Learn effective methodologies for teaching clinical procedures.
- ◆ Incorporate Attitude, Ethics, and Communication (AETCOM) into procedural training.
- ◆ Integrate simulation in Objective Structured Clinical Examination (OSCE) stations.
- ◆ Use technology to track and monitor skill development.
- ◆ Gain insights into establishing and managing a skills laboratory.
- ◆ Design and implement a clinical simulation session

Who Should Attend?

Medical College Faculty who are interested in Simulation based Medical Education and advancing CBME practices

Trauma Simulation Workshop

An immersive, hands-on Trauma Simulation Workshop designed to equip healthcare professionals with the critical skills needed to assess, manage, and respond effectively in high-stakes trauma situations.

Key Highlights

Realistic Trauma Scenarios: Adult, Paediatric and Obstetric
Team-Based Training: Lead, communicate, be part of trauma code team
Expert Facilitation: Led by trauma and ER surgeons with simulation experts
Debriefing & Feedback: Reflect, learn, and share ideas

Who Should Attend

- Emergency Medicine Physicians
- Trauma Surgeons
- Nurses (ED, ICU, OR)
- Paramedics & EMS Personnel
- Medical Students & Residents
- Simulation Educators & Coordinators

Faculty Development Program

The Faculty Development Program (FDP) in simulation offers an opportunity to learn from international and national experts in the field. Participants will receive Level one certification and guidance from senior mentors for pursuing Level two and Level three certifications over a year. Upon completing Level three, candidates will acquire the skills to design curricula, conduct scenarios, and debrief multidisciplinary teams to enhance patient care outcomes.

Programme Highlights

- ◆ Understanding the role of simulation in education & quality Improvement
- ◆ Master principles of crisis management and multidisciplinary team training
- ◆ Learn to conduct needs assessments, script scenarios, and design effective simulation curricula
- ◆ Practice debriefing techniques tailored to learners at various levels
- ◆ Discover methods to create high-realism scenarios using cost-effective techniques
- ◆ Learn directly from esteemed international and national simulation experts

Who Should Attend?

Healthcare professionals interested in simulation training
Preferably should have some simulation exposure

- Pediatricians
- Physicians
- ER specialists
- Anesthetists
- Intensivists
- Surgeons
- Nurses
- Paramedics
- Allied Healthcare

NeoSIMVent: A Simulation based Neonatal Ventilation Workshop

An immersive training program designed to enhance proficiency in mechanical ventilation through realistic, hands-on experience. Case-based scenarios to bridge the gap between theoretical knowledge and practical application, ensuring clinicians can manage complex respiratory situations with confidence.

Programme Highlights

- ◆ Mechanics of Neonatal Ventilation: Compliance, Resistance, Time Constant
- ◆ Ventilation Settings Assessment Real Time on Graphics, Pig Lung and Lung Simulator
- ◆ Case based management of Ventilated Newborn on the Lung Simulator (LuSi)
- ◆ Learn in a controlled setting where errors are an opportunity for growth without patient risk.
- ◆ High Frequency Ventilation using Pig Lung Model

Key Highlights

- ◆ Realistic Clinical Scenarios
- ◆ Comprehensive Curriculum
- ◆ Hands-On Practice

Pediatric and Neonatal SIM WARS

What is SimWars?

This Competition challenges the clinical inter-disciplinary healthcare teams to compete against each other in exciting patient simulation scenarios of Pediatric and Neonatal emergencies.

What to Expect

- Teams will navigate complex simulation scenarios focused on emergency medicine.
- A panel of experts will evaluate teams on:
- Clinical management and decision-making.
- Communication and teamwork.
- The most proficient team will emerge as the champion of Pediatric and Neonatal SimWars!

Who can Participate?

Team Composition:

One Team = 4members

- At least 2 doctors, should be postgraduate trainees.
- The remaining 2 members can be nurses, paramedics, postgraduate trainees, post-PG professionals, fellows, or post-fellowship participants.
- All Physicians and residents must have less than 7 years of experience post-MD/DNB/equivalent degree.
- There is no experience limit for nurses and paramedics.
- Team Flexibility: Teams can include members from different organizations, encouraging regional collaborations.

SIMULUS 10

10th Annual National Conference of PediSTARS on Healthcare Simulation
Theme: Healthcare Simulation for Quality and Safety

Call for Scientific Abstracts

The Scientific Committee invites original research for presentation in SIMULUS 10 under following categories :

1. Innovation in Medical Education and Curriculum Development
2. Evaluation of Assessment Strategies and Training Effectiveness
3. Simulation for Enhancing Psychomotor and Procedural Skills
4. Cost-effective Simulation-based Innovations
5. Crisis Resource Management and Interdisciplinary Team Training
6. Simulation for Quality Improvement and Organizational Transformation
7. Outreach Simulation as an Independent Domain

Guidelines for abstract submission

Formatting Guidelines

- Abstracts should be limited to one A4 size page (maximum 400 words)
- Mention the name of the category under which the abstract is being submitted
- Graphs, tables, and illustrations are allowed and will not be included in the word count but should be limited to two.
- Structure your abstract under the following subheadings: Background, Aim, Methodology, Results, Discussion/Conclusion, and References.
- Ensure the corresponding author's name and contact details are clearly included in the abstract.

Submission Guidelines

- **Submit abstracts electronically to simulus10.srhu@gmail.com with subject "SIMULUS 10 ABSTRACT"**
- Include Conference registration number in the email
- All submissions will undergo peer review after blinding
- Selected abstracts will be allocated to oral or poster presentations
- Corresponding authors of selected abstracts will be notified by mail, with presentation guidelines

Seize the opportunity

- Present your work at the biggest National simulation conference
- Receive feedback from global simulation experts
- Chance to take a leap from local research towards international collaboration

Deadline for Submission of Abstracts is 30 June 2025
